

MILLI

The Milli sofa – Where aesthetic meets comfort.

The coziness, lightness and unique style of this sofa, combined with moderate dimensions, define the Milli sofa as a compact, comfortable and exclusive type of upholstered furniture for modern interiors.

Comfort for body and soul – that's so Milli!

Transformation
mechanism

Milli design is simple and functional – it is a euro-folding sofa with a stepping transformation mechanism. Just a gentle push and the seat will start to move forward. The back of the sofa falls horizontally, forming a sleeping area of 1600x2030 mm. The Milli allows for customizability with options

ranging from stiff to soft, to adjust to each individual's sense of comfort. The depth of the seat remains comfortable even with two back cushions due to smart shape, thickness and pleasant elasticity. Milli's armrests are narrow, but as soft as possible.

MILLI

Configuration of the Milli sofa,
changes in overall dimensions:

PLT,3M,PPT

- 3M** section triple, with the mechanism of transformation to a sofa
- PLT/ PPT** left / right armrest - narrow, soft
