

CLOUD

The Cloud sofa is a highlight of your interior, adding both style and comfort!

Similar rounded shapes of the seat, back, and armrests are seamlessly combined to create a striking 3D effect.

The frame of the Cloud sofa is the pride of the ROSHE brand.

Transformation mechanism

We have developed and crafted the frame using a robust, shaped tube as the foundation. The conical legs extend beyond the frame's perimeter, creating a visually striking effect that emphasizes the lower part of the sofa.

Ultra soft polyurethane foam

High resilient polyurethane foam

Polyurethane foam with resilient properties and low residual deformation

Powder-coated metal frame
